Cristianolm | 01/21/1996 | B / B1

Profile

Academically, I have a degree in "Geography and Regional Planning", Master in "Territory Management with specialization in Remote Sensing and Geographic Information Systems" and some experience in cartographic production (in non-curricular internship).
In addition to the above, during the period of the COVID-19 pandemic I started to develop skills as a web programmer. Skills that I improve to this day.

That said, consider visiting my website where I present my curriculum vitae and portfolio as a web developer:

https://cristianolm.github.io/presentation/
